National Girls Collaborative Project AAUW Regional Liaisons

The National Girls Collaborative Project brings together organizations throughout the United States and Puerto Rico that are committed to informing and encouraging girls to pursue careers in science, technology, engineering, and mathematics (STEM). AAUW has member leaders serving as regional liaisons to the project in order to help the people involved in NGCP to make connections—to one another, to resources on gender equity, and to AAUW. Connect with your regional liaison to gain more information about this project, to learn about STEM projects already occurring in your community, and to find out how to create your own STEM project. Visit the main website of the project at: <http://www.pugetsoundcenter.org/ngcp/index.html>
