

COMMUNITY COLLABORATION

AAUW of MI shares how your local college or university Women's Studies Department can go from being a program to a community collaboration.

The purpose of this relationship is to

- **Introduce the college/university and its students to AAUW**
- **Create a network/mentoring relationship with the college/university & AAUW**
- **Create a source of programs and members for AAUW**

The goal of this project is to create a new community collaborator for AAUW that could last a lifetime.
