

## **CREATE A WAGE CLUB**

**Because wage discrimination continues to exist despite many years of family friendly legislation, AAUW is engaged in grassroots action to educate the public about what they can do to address the wage gap. One of the ways branches can do their parts is to form a WAGE CLUB. WAGE Clubs can be a year-round activity that raises awareness about pay equity issues. Using tools developed by Dr. Evelyn Murphy, WAGE Clubs offer women a resource for improving their work environment and ending wage discrimination against women.**
