

SISTER TO SISTER: GIRLS CAN

AAUW branches can bring together groups of diverse girls to identify the "evaded curriculum," issues such as sexual harassment, violence, early sexual activity, substance abuse, and body image—issues that undermine girls' learning and issues that schools cannot adequately address. With the help of adults, the girls can develop action plans to address the issues.

Sister to Sister Summits evolve into different formats. AAUW of MI provides several summit outlines to assist you in your planning.
